

PONY CLUB

Points of the Pony Mini Achievement Badge Workbook

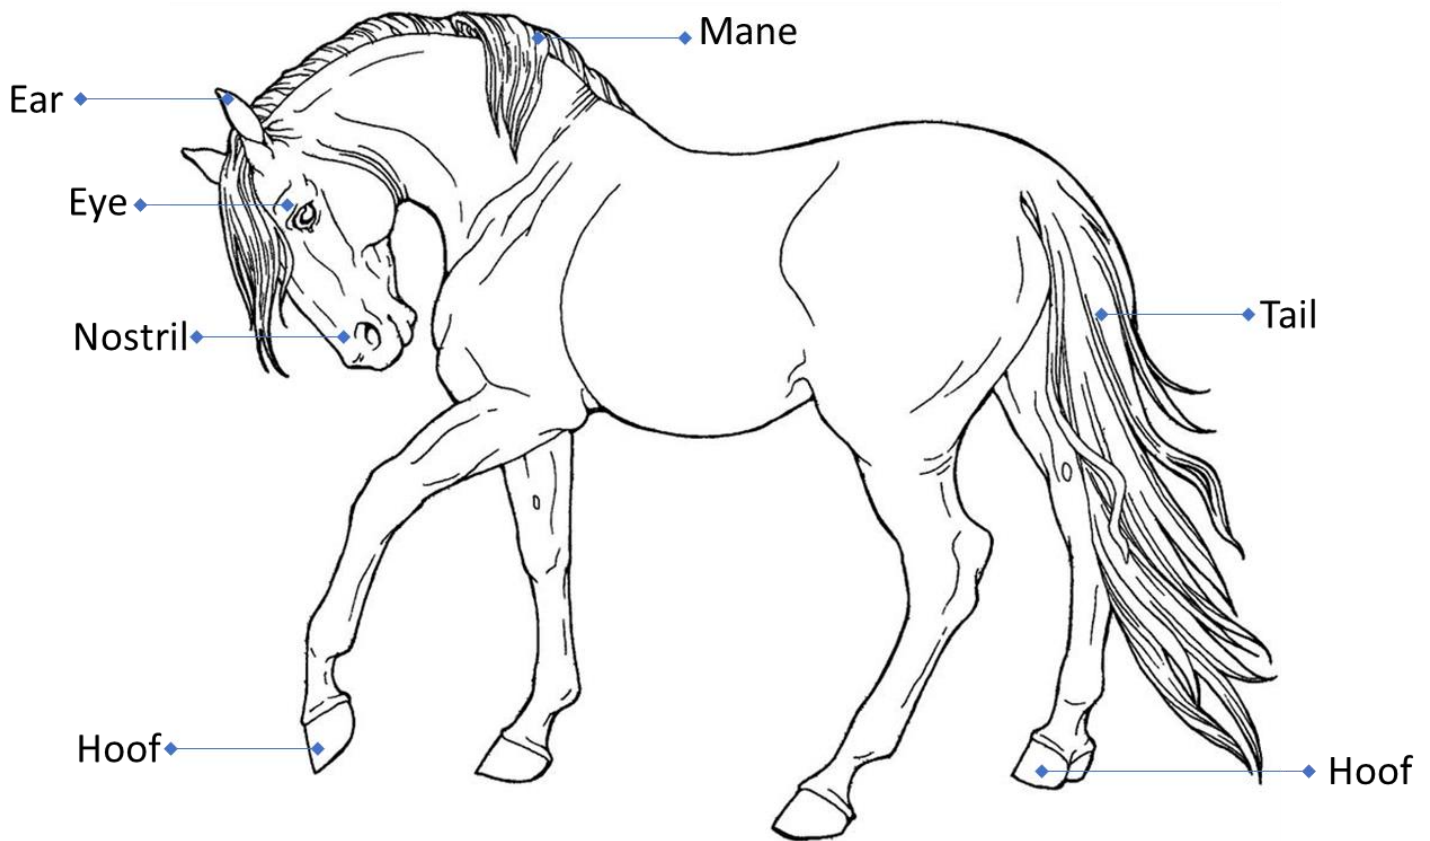

Objectives Show and name six points of the pony

- Key points
- ⦿ Ears
 - ⦿ Eyes
 - ⦿ Nostrils
 - ⦿ Mane
 - ⦿ Tail
 - ⦿ Hoof

This workbook is an introduction to the subject that it covers. As it is addressed primarily to young children, it is important that the instructor must be prepared to demonstrate the subject practically, and allow the member to practice the skills as frequently as required. It is highly recommended that the parent or the instructor read or explain the contents of the workbook to the child as it cannot be assumed that the child is able to read the information or instructions sufficiently well to achieve understanding.

Name

Branch

EARS - Have you seen how a pony is always moving his ears forward and back, and from side to side. He can hear very well, especially when his ears are turned in the direction that the noise is coming from. He also holds his ears in certain positions to send messages.

EYES - Your pony has very big eyes, and can see things far away. He can also see well in the dark.

NOSTRILS - Those nostrils can very easily smell if you have a carrot in your hand, and can smell if his food is mouldy.

MANE - The mane can be long or short, and like your hair, it can be thin or very thick.

TAIL - Your pony swishes his tail to chase away flies. Keep out of the way if he is swishing a lot, because if you feel it on your skin, it stings!

HOOF - This is the horse's foot - don't forget, there are four!

Make sure that you can point out these different parts of the pony on a real one 😊
