#### I am proud to be a Pony Club Member.

I will support my Pony Club branch or centre, by attending as many of the planned rallies as I can, and participating fully in the activities without being concerned about winning or losing, or being better at something than everybody else. I will show good manners, and try to be kind and helpful to the other people there. I will not tease or bully any other members, but will mentor, help and guide the younger or weaker members where I can. I will always be considerate towards my horse or pony, and consider his needs and welfare before the demands I wish to put on him. I will learn how to take proper care of my horse, and become a horseman or horsewoman of good repute. I will be a good ambassador for the South African Pony Club at all times.
